

Jordan Rising – Creative Writer

The following samples were written during my time with Zohar Ancient Discovery – a popular YouTube channel with over 500,000 subscribers. Much of their content explores themes such as the paranormal and ancient mysteries. I was responsible for reading articles and writing punchy intros to hook viewers in. I also presented many of these on the channel. Below I have attached a link to my presenter showreel, along with some samples of my work.
